Installing Tony Hawk's Pro Skater™ 3

INSTALL DIRECTIONS

To install Tony Hawk's Pro Skater™ 3 (THPS3), insert the game CD into your CD-ROM drive.

If Autoplay is enabled, the Installer splash screen should appear. When the installer splash screen appears, click on the Install button. For online help, click the help button. For Electronic Registration, previews and extras, click the More button.

Uninstall THPS3 -If you wish to remove THPS3 from your hard drive, you should always use the shortcut from the Start Menu. This option will remove all game files except your saved games, screen shots and personal settings.

Note: You can return to the splash screen any time without affecting your installed game by doing the following, Re-insert CD while at WINDOWS desktop, or Open "My Computer" icon right click on "CD Rom" icon and select "Auto Play" (this option is only available if "Auto Play" is enabled.)

If the THPS3 splash screen does not appear, try performing the following steps:

Double-click on the My Computer icon on your desktop, or right-click on the icon and choose the open option. Select the Refresh option located in the View pull-down menu. Double-click on the THPS3 CD icon in the window or right-click on the icon and choose the Autoplay option. After the THPS3 title screen appears, click on the install button.

If the Autoplay feature does not function, please check the following: Make sure the CD is clean and properly placed in the CD-ROM drive. Your CD-ROM driver may not be optimised for use with Windows® 98/ME/2K/XP. To verify this, perform the following steps: Open the Windows® 98/ME/2K/XP Control Panel folder and double-click in the System icon. Click on the Performance tab. If any of your hardware drivers are not fully optimised for use with Windows® 98/ME/2K/XP, they will be listed here with an explanation of the exact problem and suggestions on how to fix it.

Windows® 98/ME may not be setup to Autoplay CD's. To check, perform the following steps: Open the Windows® 98/ME Control Panel folder and double-click on the System icon. Click on the Device Manager tab. Click on the plus sign next to CD-ROM, select your CD-ROM and choose Properties.

Click on the Settings tab. Insert a checkmark in the box to the left of the Auto Insert Notification and select OK.

If Autoplay still does not work, please try the following: Double-click on the Setup.exe at the root level of the CD, or Go to Run in your Start Menu and type d:\Setup.exe (substituting your CD-ROM's drive letter if different from "d:").

DIRECTX® 8.1

During the THPS3 setup, the install process will determine if Microsoft® DirectX needs to be installed on your computer. If so, the Microsoft DirectX setup program will install the appropriate files on your computer. See the online THPS3 Technical Help file for additional information.

Q: What is DirectX 8.1 and why do I need it?

A: Microsoft's DirectX 8.1 is a set of functions that gives Windows® 98/ME/2K/XP games and other applications their power. Using these functions allows applications to perform advanced functions in networking, graphics, sound and input beyond what's possible on other operating systems and accounts for many of the performance gains associated with Windows® 98/ME/2K/XP games.

Q: If I don't install DirectX 8.1 when I install the game, can I install it later?

A: Yes. You will manually install it. To do so, use the following instructions: Place the disc in the CD-ROM drive and exit from any Autoplay screens.

Double-click in My Computer.

Right-click on your CD-ROM drive and choose install DirectX.

Follow the installation process. When DirectX installation finishes, you will need to restart your computer for the new drivers to work.

Q: I already have other Windows® 95/98 games installed on my computer. Will the Microsoft DirectX Installer change my DirectX files?

A: If you already have other Windows® 95/98 games on your computer, chances are you already have the initial version of DirectX installed. In this case, the Microsoft installer will detect and overwrite any previous versions with DirectX 8.1. At that point, you will need to restart your computer for the changes to take affect.

If, however, you already have DirectX 8.1 installed on your computer, the Microsoft DirectX 8.1 installer will detect it and not overwrite any DirectX 8.1 files. You may not need to restart your computer after installation in order to run THPS3.

NOTE: Tony Hawk's Pro Skater™ 3 requires DirectX 8.1, which is NOT compatible with Windows® 95/95OSR 2

Gameplay

Controls

The default keyboard and 9-button controller configurations are shown here. All references to button selection in this manual refer to the default keyboard configuration.

Keyboard

In Game

Grind Numpad 8

Jump/Ollie Numpad 2

Grab Numpad 6

Kick Numpad 4

Wallride Press Numpad 8 when near a wall

Manuals Tap Up-Down or Down-Up (nose manual) on the directional buttons. The Up and Down directional buttons must then be used to balance

No Comply Tab Up on the directional buttons and release the Numpad 8 key

Boneless/ Tap Up-Up on the directional

Fastplant/ buttons and release the Numpad 8 key

Beanplant

To Revert Press the Numpad 7 or Numpad 9 buttons when landing from a big air. You can continue your combo with a revert

When you bail, hit the Numpad keys or Gamepad buttons rapidly to get up faster.

Forward W

Stop S

Left A

Right D

Spin Left 180 Numpad 1

Spin Right 180 Numpad 3

Nollie Stance Numpad 7

Switch Numpad 9

Pause Escape

In Shell

Previous Screen Escape

Accept Return

Up Arrow Up

Down Arrow Down

Left Arrow Left

Right Arrow Right

Quit Q

To select menu options, use the keyboard arrows up/down. To navigate the menu options, highlight the desired buttons, and press the ENTER key or Numpad 2 to accept.

Game Reset

To abort a game in progress, press the ESCAPE button to pause the game. Choose End Run and then Quit. Choose "Yes" to quit or "No" to return back to the game. You'll be given the option to save. Choose Yes to save your progress or No if you don't want it saved. From here you'll be returned to the Main Menu screen.

Main Menu

Choose from the following options to begin play. Using Up/Down on the keyboard, or by using the mouse, choose the type of game you want to play. Press Accept key to start the game.

SINGLE PLAYER MODES

CAREER MODE

You're a professional skater now, and pros tour the world's top skate spots looking to improve their skills and gain exposure. Complete the goals in each level to advance to the next, and to earn your way into the elite competitions. Increase your stats and learn new tricks as you go. And remember: you're not going on vacation until you beat all eight levels...

TONY HAWK PRO SKATER 3 Tip: Some of the goals and bonus icon locations will change for each of the pro skaters. Try to clear the game with all 13 pros!

SINGLE SESSION

Choose a single level and skate all-out in a two-minute session in an effort to set high scores and new records. Only one level is opened at first, The Foundry. As you complete your goals in Career Mode, you earn access to other levels, just like real life.

FREE SKATE

For some, it's practice. For others, it's life. Choose a level and skate as long as you like. Hit the obstacles over and over and over again until your tricks are ready for competition. Unlock other levels in the Career Mode then Free Skate them to learn the terrain.

TUTORIAL

Whether you're new to Tony Hawk Pro Skater, or a cagey veteran, visit the tutorials to get tips from the man himself - Tony Hawk. Tony will walk you through a series of lessons, teaching you all about the basics of controlling your skater, and offering some advanced tips along the way.

MULTIPLAYER MODES

Tony Hawk's Pro Skater 3 features built-in support that allows you to host or join games over the internet using Gamespy™ internet technology. You must have a TCP/IP connection to play over the internet.

NETWORK PLAY

Use the Internet or a Local Area Network (LAN), and play up to eight-player games simultaneously allowing you to challenge skaters across the country.

GRAFFITI

Set your own time limit then push the limits to see who can nail the most tricks. Obstacles are "Tagged" with your colour by tricking off them. Try to steal your friend's tags by pulling higher scores and bigger combos off the same object. The player who tags the most objects wins.

TRICK ATTACK

Trick Attack is a free-for-all to see who can skate the best lines and rack up the most points within the given time limit. You can run into opponents and rub their little faces into the terrain - and this time you'll score more points for the insult.

SLAP!

This one's easy to explain - he who slaps the most, wins. When two skaters collide, the faster player always wins. So bust some tricks to get your Special Meter full, and then start slap smacking those other skaters around!

KING OF THE HILL

There's a crown out there somewhere, and the first player to find it becomes King. While you're King, there will be a crown above your head, and your score - in time - will start counting up. To keep things fair, you'll skate slower while wearing the crown. Slap the King around to steal his crown. The first player to hold the crown for the preset time limit wins.

Tip: Follow the arrow displayed at the top of the screen to locate the crown.

FREE SKATE

Keep it real with two players in a no-time, no-score, and no-rules session. Skate just like you do on the street, minus the ever-present cops and security guards.

NOTE: By default, all online games start out in Free Skate mode until Host selects game type.

CONTROL THE ZONE

Two opposing teams head towards the same goal: capturing as many zones as possible! Grab the key and unlock the zones to increase your score multiplier. But beware: if you lose the key, the other team can pick it up! The team with the highest score wins!

KEEP AWAY

Grab the ball and run! Holding the ball and doing tricks will gain you points. If you fall or get slapped, the ball will fall out of your hands – so hold on tight! The player with the highest score wins!

CAPTURE THE FLAG – CTF

Lead your team to victory by capturing the opposing team's flag! Skate past the opposition and grab their flag then make your way back to your base with it to score. Have your teammates defend your flag – you don't want to get back to your base with no flag waiting for you!

The Game Levels

LEVEL 1: FOUNDRY

When you are not dropping in and meltin' some steel, take a tour of this wonderful foundry, complete with big rails, lofty ramps, and hydraulic presses. This is the perfect place to practice some moves and get your basic skills ready for the next level.

LEVEL 2: CANADA

The Great White North. Check out the amazing mining rail system or try to get to the top of the mountain – it's cold up there! Also, take some time checking out the skatepark, and show off for your Canadian buddies.

LEVEL 3: RIO

(CAREER CONTEST 1 – "Quiksilver Rio Ruckus")

With its incredible views and precision skating, Rio de Janeiro offers some of the best lines in the business. Take a tour around the telephone cable or spend time on the ramps. Anyway you skate it, Rio is always a blast.

LEVEL 4: SUBURBIA

Did someone say Ice Cream? Hit the rooftop ledge grinds, and thrash the trailer park vert ramps, and find your way into the haunted house in an effort to advance in your career as a pro. Who knows, if you are good enough, you may own one of these houses some day.

LEVEL 5: AIRPORT

Remember to get there an hour before your flight, because there is plenty of skating to do! Escalators aren't just for walking any more. Waiting for your baggage is more fun than ever.

LEVEL 6: SKATER'S ISLAND

(CAREER CONTEST 2 – "King of the Coast Jam")

True to it's name, this place is definitely an island all it's own. Here you will find the famous mini ramp snake run and huge vert ramp. Don't forget the street course and lovely beams at the top, they are perfect for everyday grinding or trying to work out that one amazing run.

LEVEL 7: LOS ANGELES

The place where dreams are made and everyone's a star. This level offers only the best Los Angeles skate locations, complete with traffic, and an earthquake. Remember to look both ways before you cross the street!

LEVEL 8: TOKYO

(CAREER CONTEST 3 – "Mega Mecha Mayhem")

Downtown Tokyo. The lights, the shops, the...skating! Skate around this area of town with the best of them. But remember, practice makes perfect, riders don't come to this competition level to mess around. Bring your best tricks and practice your biggest lines because the big boys (and girls) are in town.

Tony Hawk's Pro Skater 3 reads like the Who's Who of professional skateboarding. For rider's skill ratings, check the game or online at: www.activision02.com/tony_hawk

Tony Hawk

Depending on whose home you were checking, Tony Hawk's been a household name for over twenty years. But it's really his last half-decade of contest winning and 900 spinning that have tattooed HAWK on the foreheads of our youth. A trailblazer in the effort to bring skateboarding to the ends of the world, Tony has become an icon for a generation of kids sorely needing one. Through the invention of countless tricks, his seemingly limitless potential, and a sense of grace and class that follows behind his quickly-moving self, Tony Hawk soars.

Steve Caballero

One of a select few, this "Godfather of Modern Skateboarding," helped define just what it means to be a professional skateboarder, pioneering this modern era of technical skating with innovations like his namesake fakie ollie 360 - the Caballerial. With the energy of a teenager and the sophistication of a man who has made his own way, Cab is a year-round skater who teaches by example. He rides every terrain - street, vert, and parks - with the skill and passion of a master.

Kareem Campbell

An ideal combination of both East and West coast sensibilities, Kareem Campbell is not a bridge joining an equal-but-opposing geo-cultural issue, he's just an authentic skater. Born and raised in real cities, his skate-life come-up led Kareem to develop an urban foundation to his skateboarding. Not by design, but rather out of necessity, his metro-style is a well-honed version of what the rest of the world's street dwellers hope to someday attain: smart, real, and smoothed out - without the R&B.

Rune Glirberg

An O.G. Dane enduring the climes of sunny So.Cal, Rune Glirberg's been known to phone home using ubiquitous digital technology. His extra-terrestrial power-style has led him to the podium of many a vert contest, but he's surprisingly well versed in all of the undisciplined disciplines of modern skating - parks, pools, streets, and, of course, whatever. Pinching bits and pieces of experience from all terrain has made Rune one of the most versatile skaters of the day. Rune has shown that street, vert, or otherwise, it is possible to be at home no matter where one may be in the world.

Eric Koston

The clean-bean ideal of an Everyskater, Eric Koston has quietly become skateboarding's most influential front-row cheerleader for the Los Angeles Lakers. Tirelessly supporting his home team to a dominating NBA Championship repeat, Eric has also managed to evolve his smooth, consistent, and innovative skateboard skills to the point that young fans everywhere are abandoning their dreams of crossovers and three pointers in hopes of someday nailing fifteen-stair backside noseblunt slides, "Just like Koston."

Bucky Lasek

Bucky Lasek is an excitable twenty-something who, once emerging from the long shadow cast by his friend and mentor Tony Hawk, proceeded to destroy any sitcom sidekick preconceptions by cranking out his own style of beyond-the-boundaries vert skating. Bucky carries along with him a weighty satchel of trickiness that includes above-the-lip flips and twists and a laundry list of tech coping sorcery.

Bam Margera

Bam Margera is both lightning bolt and lightning rod - snapping necks with his unrestrained Pennsylvania-grown skate style, and harnessing the energy of his own massive discharge by video taping literally every waking moment of his practical-joker lifestyle. For skaters, he's a hilariously talented breath of fresh air in the form of seriously non-serious, and for the rest of the planet who knows him simply as "The jackass who skates," he's the bad example that everyone wants to follow. Perfectly shocking.

Rodney Mullen

Rodney Mullen birthed today's street tech. Period. An icon among idols, he's the man who freestyled many of the moves today's freshest pros use as a foundation for their own progressive skating. Flat ground ollies, 360 flips, and ollie impossibles were all made manifest by the critical thought and problem solving of this tenured Prof. of skateboard conceptualism.

Chad Muska

With a nod to the past manifested in Muska Style, be it his deck designs or his daring 'dos, this heroic skater proudly represents today's new breed of renaissance professional skateboarders. This customised sled shredder is known not only for his breathtaking leaps and bounds on board, but his other-level self promotion - demoing, music making, and palm pressing like the tireless public figure he's built himself into. Still, Muska has and always will be respected for fearlessly testing the physical bounds of real-deal street skating with the best very of them.

Andrew Reynolds

Bringing a precise lank and stomp to the sometimes flailing world of big-drop street skating, Andrew Reynolds' It's-Hammer-Time tendencies are powered by his willingness to throw his six-foot frame from heights that make limping crybabies out of lesser men. Powered by invisible springs and kept upright with hidden gyroscopes, Reynolds represents skateboarding's ultimate fighting machine - declassified and unleashed on the planet in hopes of keeping our streets free of ticky-tack mediocrity.

Geoff Rowley

An explosion of over-the-top activity has elevated Geoff Rowley from excellent skater to skateboarding's par excellence. Consistently operating above the also-rans in the non-competitive competition that defines real skateboarding, this re-located Brit has paid his fair share of dues whilst unceremoniously being dubbed the official holder of the title, King Assassin of Unsuspecting Rails and Double Sets. And that's official.

Elissa Steamer

Truly a skater's skater, Elissa Steamer hasn't made her name in professional skateboarding as a flag waving "first female," but as a no-nonsense skater with a sick desire to learn, progress, and rise above even her own preconceptions of what can be done on-board. Taking her lumps and paying her dues along with the rest of the pro field, she's altered the testosterone-soaked landscape of skateboarding by refusing to lower herself to the level of gender debates and instead choosing to just shut up and skate.

Jamie Thomas

Coming up quick on fifteen years of serious skateboarding, Jamie Thomas still wakes up everyday thinking, living, and breathing his leap-of-faith style skating - and shows no sign of easing up any time soon. With a drive strong enough to motivate his mind over what really matters, Thomas can often be found speeding through immense handrail and gap situations leaving in his wake the shredded conceptions of where skateboarding can be shoved for the sake of "How far?" and "How high?"

Tony Hawk Pro Skater™ 3 Tip: Tired of the same old look? Use the Change Appearance option to change the look of the pro you're playing with. Dress them up anyway you like.

NOTE: Some pro characters have limited options for changing appearance.

Create-A-SKATER

It's time to create your own legend (or legends). Go to Create-a-Skater menu and build a custom character from scratch.

NOTE: Activision Customer Support cannot troubleshoot user-made skaters.

SKATER APPEARANCE MENU

Use Left and Right to move from tab to tab of skater options. In Tony Hawk's Pro Skater 3 you can create nearly any kind of skater you can think of. Don't forget to give your skater a name, a stance (goofy or regular), a push style (regular or mongo), a specialty (vert or street), a height, and a weight. Create someone unique - then go online to show off your look.

Available Create-A-Skater options:

STATS

Stats increase your skater's performance. There are nine stats for each skater, both pro and created.

Air - Affects the boost you get when you air on a quarterpipe.

Hang Time - Affects the length of time you stay in the air.

Ollie - Affects your ground jump height.

Speed - Affects your flat ground speed.

Spin - Affects the speed at which your character rotates. Max it out if you want to spin 720s or 900s.

Switch - Determines how well you skate when you are skating switch. When switch stats are full at 10, the skater will be equally skilled regular and switch.

Rail Balance - Affects your ability to balance on rails.

Lip Balance - Balance for lip tricks. The higher the stat, the longer you can tweak lip tricks and the more points you can score.

Manual Balance - The higher the value, the longer you will be able to balance manuals.

Skate Tip: In Career Mode, stats can be constantly tweaked and rearranged any way you like. Collect the stat points hidden in the levels to increase your stats, until you're at full stats in all categories.

NOTE: please see the installed readme for the most current configuration and selections

So, you're ready to go online and play against opponents around the world? Well, we've tried to make it as easy as possible for you to get connected. Let's go through the steps...

GETTING IN THE GAME...

Select **NETWORK PLAY** from the Main Menu and your PC will attempt to verify your network settings.

NOTE: If you can't get past the main menu, then your network is not configured properly. Check your hardware, cables, and network settings, and try again.

You will always go online with the current active character –you'll see him or her standing in the skate shop. Prior to going online you can change skaters by using the **CHOOSE SKATER** option on the **NETWORK PLAY** menu.

Next, select **INTERNET** to attempt to play Tony Hawk's Pro Skater™ 3 over the internet, or **LAN (Local Area Network)** in order to play against other PC users connected locally on your network. THPS3 uses GameSpy (www.Gamespy.com) for it's online matchmaking. GameSpy acts as a central meeting place, or matchmaker, for all the internet based games of THPS3.

Selecting the **INTERNET** option will bring you to the Gamespy server list screen. Here you will see a server listing on the left, a player listing on the right, and a chat window at the bottom of the screen. This is the area where you will start or join an internet game, or just chat with fellow THPS3 players online.

In the server list window you will see a set of icons at the top of the window, this is your action menu. From here you can join a game in progress, start a game for others to join, or set up Internet filters. Joining a game is simple, just click on a server and go! Once you click on a server you will go to the server info screen. You can then join the game, or monitor the score of the game in progress. If you want to start a game, click on the skateboard icon and choose your settings. From there you will be placed in a "Staging Area" in which you wait for others to join your server. Once you have the desired number of players, click on the skateboard icon again to launch the game.

The player list window is simple, the dots next to the players name represent that players "ping". A players ping is directly related to how good their connection to the Internet is. A player with two full green bars has a better connection to the internet then a player with two red dots. As a player you want to find a server with the most green dots next to it.

Note: You can filter out higher ping servers with the Filter option in the action menu.

The chat window is where you meet with new players to play multiplayer games with. When you type in the window you will broadcast to everyone in the same area as you. If you want to chat privately with one player, click on the letter icon in the player list window.

Selecting the **LAN** option will bring you to the LAN menu screen. From here you will see the following options:

JOIN SERVER – Select this option to join one of the servers shown on the right.

START SERVER – Select this option to start a server of your own with you as the host.

REFRESH – This option will rebuild the Server List on the right of the screen. As time passes, the Server List will become out of date (games will fill up, servers will be shut down, other servers started) so you may need to refresh your server list frequently.

JOINING A GAME

If you select Join, the highlight cursor will move to the Server List. Use Up and Down keys to move from server to server. As you highlight each server, pertinent information about that server is shown in the lower left hand corner of the screen. The server info shown includes:

MODE – The game that is being played, or will be played.

SKILL – Skill Level gives you a rough idea how skilled the players are in a particular server. If set to 1, you'll be playing newbies; 5 is for hardcore THPS3 players only!

LEVEL – The level on which the game is being played.

PLAYERS – The number of players currently in the game. Eight is the maximum.

1/2/3/4 – The player names of the players in the game will be listed at the bottom of the **SERVER INFO** menu.

Highlight a server and press the Enter key to attempt to join that server. If the server has room, the level will load, and away you go!

SERVING A GAME

If you choose to serve a game, you will be presented with the SERVER SETUP MENU. As the server player, you will be the host of the game. Once your server is up, other players will see it in the SERVER LIST and can attempt to join it. When starting a server, you'll get the following options:

SERVER NAME – Set the name of your game as it will appear in the server list to other players.

MAXIMUM PLAYERS – The highest number of players you will allow on your server.

SKILL LEVEL – rate your skill level – 1 is for beginners, 5 is for high scoring vets.

PASSWORD – You can password protect your server if you only want people who know the password to be able to join. Leave it empty if you want everyone to be able to join.

READY – Select this when you're good to go and ready to start serving.

Tip: If, for some reason, your PC loses contact with the THPS3 GameSpy matchmaker, you will be given an error message and a warning (i.e. "Your game was not posted on GameSpy..."). If you receive this message, then it means your server failed to register with the GameSpy matchmaker and other players will not be able to see it. You can either keep playing by yourself, or QUIT, check your network connection and firewall settings, and start your server again.

PLAYING IN A NETWORK GAME

A THPS3 server is hosted by one of the players, and can hold up to eight skaters at a time. If you selected JOIN SERVER to get into the game, then you are considered a "client" to that server. If you selected START SERVER, then you're in control – you're considered the "server" player.

After joining, you will most likely be dropped into Free Skate Mode. During Free Skate, you can cruise around and get a feel for the layout of the level, or chat it up with your fellow skaters.

When the server player is ready to start a game, you will get a notification, and then the game will start. After the game is completed, you will be shown the final rankings screen, and then return to Free Skate.

Network game menu:

When the game is paused or the server is changing game modes, you will see the server setup screen. This screen handles everything from game mode and level changes to player team and name changes. As a client you will have the following options available to you.

Return to game – Click this menu option to return to the game.

Quit – Click on this menu option to exit out of network play and return to the skate shop.

Name – Use this to change your player name while your in the game.

Team – By default you will be assigned to a team randomly, you can change which team you are on by clicking here.

Ready – This option tells the server that you are ready to play the game and that all of your settings have been finalised.

MENU AVAILABLE TO A SERVER PLAYER

As the server player, you'll be hosting the game and it's up to you to decide which games are played, what the options are, and when they start. You'll be given the same Pause menu options as the clients (see above), with the following added options:

START GAME – select this to start a game with the currently selected **GAME OPTIONS** (see below).

CHANGE LEVEL – change to a different level. All players in the game will move with you to the new level.

BAN PLAYER – if someone is misbehaving or causing problems, select this option to boot that player from your game and ban them from ever returning to your server. To select this option, click on the Skull icon next to the player name.

GAME TYPE – Select the type of game you want to play. Your choices are Trick Attack, Graffiti, Slap!, King of the Hill, Capture the Flag, Control The Zone, and Keep Away.

END GAME OPTIONS – This area lets the server player set up how the game will end. Based on the game mode you can select between timed mode, score mode, capture limit, zone score limit, and control all zones.

TIME LIMIT – This is where the server player sets up how long the round is played for. At the end of the round the score will be displayed and you will return to the server setup screen.

Tip: You can only serve on levels that you have unlocked...Unlock additional levels by playing offline in Career Mode. As a client, you can join a game being played in any type of level – even secret ones!

OTHER NETWORK SETUP OPTIONS

NETWORK PLAYER NAME

No matter what type of hardware and connection settings you are using, you'll need to enter a Network ID. This is the name that you and your skater will be known by in the online world. The default name is the massively unoriginal "ProSkater."

SAVE SETTINGS

Once your network device and settings are configured, you can save them to your hard drive.

Real-Time 3D Park Editor

NOTE: Activision Customer Support cannot troubleshoot user made editor parks.

Become the sick skate park architect you always knew you could be with the 3D Real-Time Skate Park Editor. It's one of the most advanced level editors ever created, letting you use ramps, rails, pools, fun boxes, obstacles and Quarterpipes to create dream parks in real-time. Go big, rotating and stacking pieces in whatever way your twisted mind desires. You'll never run out of levels to ride.

BASIC CONTROLS

The currently selected piece acts as your "cursor" as you use the WSAD keys to move the piece around your park. The spacebar rotates the piece and the left mouse/Enter place it down. The Backspace/Right Mouse will erase any pieces intersecting with the current piece.

CHANGING PIECES

Use the arrow keys to select pieces. Up and Down allow you to scroll through the different categories of pieces to choose from. The current category is shown in the upper left hand corner of the screen. Once you've selected a category, Left and Right scroll you through the pieces available in that category.

RAISING AND LOWERING THE GROUND

Use the Page up and Page down keys to raise and lower the ground beneath the currently selected piece. You can only raise and lower empty ground – if you want to raise or lower the ground beneath a placed piece, remove it first.

TONY HAWK PRO SKATER 3 TIP – choose a massive piece, like the prebuilt halfpipe, then press the Page up or Page down to raise and lower large sections of your park.

CATEGORIES AND PIECES

What you want, we've got. Including:

Restart points – See info below.

Gap Tool – See info below.

Big Objects – Halfpipes, pools, bowls, trailers, and benches.

Funboxes – Pre-built obstacles to add variety.

Benches – Go to school on benches and tables.

Walls – Ride them if you can.

Quarterpipes – Two sets to choose from.

Pools – Construct your own or select pre-made versions.

Rails – Centre and edge rails for extra grind.
Slopes – Kickers galore and transition pieces.
Stairs – Ankle busta mecca, many with rails.
Vegetation – Throw in some greenery..
Misc. – High walls, roll-ins, signs, foliage, floors.

OTHER CONTROLS

Pressing Escape will bring up the Park Editor Menu.
The + and - keys will zoom the camera in and out.

THE PARK EDITOR MENU

While building, press the Escape key to access the Park Editor Menu.

Test Skate– Places you in your created park with the last character you played with.

Switch Theme – There are three themes to choose from and the theme can be changed at any time. It will not erase or affect the layout of the park.

Clear Map – Start over if you must.

Pre-Made Parks – Allows you to load a pre-built park included with TONY HAWK PRO SKATER 3. You can learn a lot about park layout by looking at the included parks, and can erase and rebuild parts of them.

Load Park – Load a created park from your hard drive.

Save Park – Save your park to your hard drive. The name you save under will become the name of your park.

Park Tip: To select a different character or to play in a different mode, first Save your park, then Quit to the Main Menu, select your preferred mode and character, and when you get to the Level Select, your park should be accessible.

A FEW SPECIAL PARK ITEMS

RESTART POINTS

The green object marked "1" is the Player One Restart. This piece will mark the starting point for player one. Only one can be placed in a level.

The Player Two Restart works the same way; it marks where the second player will start in a multiplayer game.

The Multiplayer Restart point is used for team based games such as Capture the Flag and Control the Zone. Place as many of them as you see fit for your teams.

You can choose teams by highlighting the multiplayer restart piece and pressing the enter key.

The Crown piece is used to mark where the crown will appear in King of The Hill games. You can place up to six crowns in your level. Keep in mind that the ball used in Keep Away will use the same start points as the crown.

Capture the Flag pieces mark the starting place for each team's flag. The red flag is for the red team, and the blue is for the blue team. You can only place one flag per team.

MIND THE GAP

When a difficult jump or manoeuvre is done over a gap, extra points are earned. Tricking across gaps is the key to getting big scores. A gap can encompass nearly anything – a jump from one ramp to another, a transition across two quarterpipes far away from each other, grinding a long, kinked rail, or even manualing across a particularly tough table.

CREATING GAPS

Gaps always link two objects together. In the Editor, use the Gap Tool to select the first piece involved in the gap (a white wireframe "gap poly" will attach to it). Then select the second piece to complete the gap.

Each piece of the gap will now have a "gap poly" attached to it. The gap poly looks like a white, wireframe "wall" attached to the piece. In or to achieve a gap in the game, the player must jump through one gap poly, and pass through the other side of the gap poly before landing.

Put the GAP TOOL over a piece with a gap attached to it to modify that piece's "gap poly." The spacebar will rotate the gap poly to a different side of the piece. The numpad 3 and 9 button will modify the dimensions of the currently selected gap. Press the Enter key to access that gap's GAP MENU.

THE GAP MENU

In the Gap Menu, you can name your gap and set its score. The gap's name will be shown at the bottom of the screen when a player completes the gap in the game.

TONY HAWK PRO SKATER 3™ TIP: You can always get back to the Gap Menu by placing the Gap Tool over a piece shaded blue and pressing the Enter key.

You can erase a gap by placing the Gap Tool over a piece involved in the gap and pressing the Backspace key. This will remove both sides of the gap.

Edit Tricks

NOTE: Activision Customer Support cannot troubleshoot user-made tricks.

While you're hanging in the skate shop, or skating in the game, you can always edit your tricks. Swap tricks around until you find a perfect set to your liking.

To change a trick assignment, select the key combo you want to change, then select the new trick for that slot.

SPECIAL TRICKS

Special tricks always require at least three key presses. All skaters start out with only four special trick slots, but as you finish levels in Career Mode, you can earn up to six more slots. To edit a slot, select the trick, then find the new trick you want, and finally select an appropriate key combo for that trick.

CHANGING YOUR BOARD

As you progress through Career Mode, you'll find hidden decks scattered throughout the levels. Visit the skate shop to see what new graphics you've unlocked – there are ten graphics for every pro in the game.

You can also change your wheel colour and select any style of griptape you like.

Skate Tip: Once you've unlocked pro deck graphics, they're available for your created skaters, too. Created skaters can use pro decks by holding the Left and Right arrow keys to view them from the Skate Shop Screen.

OPTIONS MENU

CONTROLS CONFIGURATION

This is where you choose and configure your controller or gamepad. Use the Left/Right and Up/Down arrow keys to customise your controller setup. Press the Enter key to toggle an option On or Off.

Auto Kick – Select On for automatic acceleration of your skater. Select Off for manual acceleration.

Spin Taps – Selecting On will change the way the spin Left and Right keys work in the game. When Spin Taps are active, you need only tap the spin Left and Right keys to rotate your skater in fixed 180 degree increments in the air.

SOUND LEVEL

Sound FX Volume – Use the Left/Right directional buttons to adjust the sounds effect volume.

Music Level – Use the Left/Right directional buttons to adjust the music volume.

NOTE: If music is set to 0, the game's soundtrack will be substituted with additional ambient sound effects.

MOVIES

Unlock videos as you go. Footage includes highlights from each pro and some special bail sessions. Every character in the game has a special movie that can be unlocked in Career mode.

CHEATS

Really? You really think we're just going to give things away? You know you have to figure things out for yourself. Or truly cheat and get a magazine that lists everything for you. Cheater.

HIGH SCORES AND LEVEL RECORDS

If you don't understand high scores, you need to get a better skate helmet.

CUSTOMER SUPPORT

Before contacting customer support, please consult the technical help file. It contains the answers to some of our most frequently asked questions and may quickly and easily provide a solution to your difficulty. If after reviewing the technical help file you are still experiencing problems, please feel free to contact us through any of the online services listed. In order to assist us when dealing with your difficulty, please have the following information ready when you call or attach it to your email to support@activision.co.uk.

1. Complete product title.
2. Exact error message reported (if any) and a brief description of the problem.
3. A copy of your Direct X Diagnostics report. To access this go to Start -> Run and type dxdiag c:\dxdiag.txt and press ENTER. The report will be found in your My Computer C: drive.

If you are experiencing difficulty with the multiplayer or online portion of the product, please assist us by having the following additional information ready when you call.

If you are using a modem:

1. What kind of modem is on each end (brand, model, speed, internal or external)?
2. Do you have more than one modem?
3. On which port is each configured?
4. Does Hyperterminal (or any other terminal program) work with your modem? This is an easy way to test whether or not your modem is configured correctly.
5. At what speed are you connecting?
6. Have you made sure data compression, error detection, and flow control is turned OFF? Refer to your modem's manual to do this.

If using an external modem:

1. What kind of serial card is being used?
2. Do you have a seven-wire serial cable?

If you are on a LAN:

1. Can you see other computers on the network?
2. What is your network configuration?
3. What brand of network card do you have?
4. What network software are you running? What version number?

Online Services with Activision Forums, E-Mail and File Library Support

For support via the web please visit <http://www.activision.com/support> or e-mail support@activision.co.uk

CUSTOMER AND TECHNICAL SUPPORT IN EUROPE

For Customer Support you can contact Activision in the UK on +44 (0)8705 143 525 between the hours of 8:00am and 7:00pm (UK time) Monday to Friday with the exception of holidays.

For Technical Support, please contact: + 44 (0)870 2412148 between the hours of 8:00am and 7:00pm (UK time) Monday to Friday and Saturdays 8:00am to 5:00pm with the exceptions of holidays.

Your calls may be monitored

For Technical Support and Customer Service in areas not listed, please contact your local distributor or Activision via online. (Please note the online support is available in English only).

Software License Agreement

IMPORTANT - READ CAREFULLY: USE OF THIS PROGRAM IS SUBJECT TO THE SOFTWARE LICENSE TERMS SET FORTH BELOW. "PROGRAM" INCLUDES ALL SOFTWARE INCLUDED WITH THIS AGREEMENT, THE ASSOCIATED MEDIA, ANY PRINTED MATERIALS, AND ANY ONLINE OR ELECTRONIC DOCUMENTATION, AND ANY AND ALL COPIES OF SUCH SOFTWARE AND MATERIALS. BY OPENING THIS PACKAGE, INSTALLING, AND/OR USING THE PROGRAM AND ANY SOFTWARE PROGRAMS INCLUDED WITHIN, YOU ACCEPT THE TERMS OF THIS LICENSE WITH ACTIVISION, INC. ("ACTIVISION").

LIMITED USE LICENSE. Subject to the conditions described below, Activision grants you the non-exclusive, non-transferable, limited right and license to install and use one copy of this Program solely and exclusively for your personal use. All rights not specifically granted under this Agreement are reserved by Activision and, as applicable, Activision's licensors. This Program is licensed, not sold, for your use. Your license confers no title or ownership in this Program and should not be construed as a sale of any rights in this Program.

LICENSE CONDITIONS.

You shall not:

- Exploit this Program or any of its parts commercially, including but not limited to use at a cyber cafe, computer gaming center or any other location-based site. Activision may offer a separate Site License Agreement to permit you to make this Program available for commercial use; see the contact information below.
- Use this Program, or permit use of this Program, on more than one computer, computer terminal, or workstation at the same time.
- Make copies of this Program or any part thereof, or make copies of the materials accompanying this Program.
- Copy this Program onto a hard drive or other storage device; you must run this Program from the included CD-ROM (although this Program itself may automatically copy a portion of this Program onto your hard drive during installation in order to run more efficiently).
- Use the program, or permit use of this Program, in a network, multi-user arrangement or remote access arrangement, including any online use, except as otherwise explicitly provided by this Program.

- Sell, rent, lease, license, distribute or otherwise transfer this Program, or any copies of this Program, without the express prior written consent of Activision.
- Reverse engineer, derive source code, modify, decompile, disassemble, or create derivative works of this Program, in whole or in part.
- Remove, disable or circumvent any proprietary notices or labels contained on or within the Program.
- Export or re-export this Program or any copy or adaptation in violation of any applicable laws or regulations of the United States government.

OWNERSHIP. All title, ownership rights and intellectual property rights in and to this Program and any and all copies thereof (including but not limited to any titles, computer code, themes, objects, characters, character names, stories, dialog, catch phrases, locations, concepts, artwork, animation, sounds, musical compositions, audio-visual effects, methods of operation, moral rights, any related documentation, and "applets" incorporated into this Program) are owned by Activision, affiliates of Activision or Activision's licensors. This Program is protected by the copyright laws of the United States, international copyright treaties and conventions and other laws. This Program contains certain licensed materials and Activision's licensors may protect their rights in the event of any violation of this Agreement.

PROGRAM UTILITIES. This Program contains certain design, programming and processing utilities, tools, assets and other resources ("Program Utilities") for use with this Program that allow you to create customized new game levels and other related game materials for personal use in connection with the Program ("New Game Materials"). The use of the Program Utilities is subject to the following additional license restrictions:

- You agree that, as a condition to your using the Program Utilities, you will not use or allow third parties to use the Program Utilities and the New Game Materials created by you for any commercial purposes, including but not limited to selling, renting, leasing, licensing, distributing, or otherwise transferring the ownership of such New Game Materials, whether on a stand alone basis or packaged in combination with the New Game Materials created by others, through any and all distribution channels, including, without limitation, retail sales and on-line

electronic distribution. You agree to not solicit, initiate or encourage any proposal or offer from any person or entity to create any New Game Materials for commercial distribution. You agree to promptly inform Activision in writing of any instances of your receipt of any such proposal or offer.

- If you decide to make available the use of the New Game Materials created by you to other gamers, you agree to do so solely without charge.
- New Game Materials shall not contain modifications to any COM, EXE or DLL files or to any other executable Product files.
- New Game Materials may be created only if such New Game Materials can be used exclusively in combination with the retail version of the Program. New Game Materials may not be designed to be used as a stand-alone product.
- New Game Materials must not contain any illegal, obscene or defamatory materials, materials that infringe rights of privacy and publicity of third parties or (without appropriate irrevocable licenses granted specifically for that purpose) any trademarks, copyright-protected works or other properties of third parties.
- All New Game Materials must contain prominent identification at least in any on-line description and with reasonable duration on the opening screen: (a) the name and E-mail address of the New Game Materials' creator(s) and (b) the words "THIS MATERIAL IS NOT MADE OR SUPPORTED BY ACTIVISION."

LIMITED WARRANTY: Activision warrants to the original consumer purchaser of this Program that the recording medium on which the Program is recorded will be free from defects in material and workmanship for 90 days from the date of purchase. If the recording medium is found defective within 90 days of original purchase, Activision agrees to replace, free of charge, any product discovered to be defective within such period upon its receipt of the Product, postage paid, with proof of the date of purchase, as long as the Program is still being manufactured by Activision. In the event that the Program is no longer available, Activision retains the right to substitute a similar program of equal or greater value. This warranty is limited to the recording medium containing the Program as originally provided by Activision and is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect has arisen through abuse, mistreatment, or neglect.

Any implied warranties prescribed by statute are expressly limited to the 90-day period described above.

EXCEPT AS SET FORTH ABOVE, THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, WHETHER ORAL OR WRITTEN, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, AND NO OTHER REPRESENTATIONS OR CLAIMS OF ANY KIND SHALL BE BINDING ON OR OBLIGATE ACTIVISION. WILL ACTIVISION BE LIABLE FOR SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGE RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THIS PRODUCT, INCLUDING DAMAGE TO PROPERTY AND, TO THE EXTENT PERMITTED BY LAW, DAMAGES FOR PERSONAL INJURY, EVEN IF ACTIVISION HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS AND/OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS AND/OR EXCLUSION OR LIMITATION OF LIABILITY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE. When returning the Program for warranty replacement please send the original product disks only in protective packaging and include: (1) a photocopy of your dated sales receipt; (2) your name and return address typed or clearly printed; (3) a brief note describing the defect, the problem(s) you are encountered and the system on which you are running the Program; (4) if you are returning the Program after the 90-day warranty period, but within one year after the date of purchase, please include cheque or money order payable to Activision for \$10 U.S. (\$19 AUD for Australia, or £10.00 for Europe) currency per CD. Note: Certified mail recommended.

In Europe send to:

WARRANTY REPLACEMENTS

ACTIVISION (UK) Ltd., Parliament House, St Laurence Way, Slough, Berkshire, SL1 2BW, United Kingdom.

Disc Replacement: +44 (0)8705 143 525

In Australia send to:

Warranty Replacements

Activision, Century Plaza, Level 1, 41 Rawson Street, Epping, NSW 2121, AUSTRALIA.
Disc Replacement: 612 9869 0955

LIMITATION ON DAMAGES: IN NO EVENT WILL ACTIVISION BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THE PROGRAM, INCLUDING DAMAGES TO PROPERTY, LOSS OF GOODWILL, COMPUTER FAILURE OR MALFUNCTION AND, TO THE EXTENT PERMITTED BY LAW, DAMAGES FOR PERSONAL INJURIES, EVEN IF ACTIVISION HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. ACTIVISION'S LIABILITY SHALL NOT EXCEED THE ACTUAL PRICE PAID FOR THE LICENSE TO USE THIS PROGRAM. SOME STATES/COUNTRIES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS AND/OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS AND/OR EXCLUSION OR LIMITATION OF LIABILITY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION.

TERMINATION: Without prejudice to any other rights of Activision, this Agreement will terminate automatically if you fail to comply with its terms and conditions. In such event, you must destroy all copies of this Program and all of its component parts.

U.S. GOVERNMENT RESTRICTED RIGHTS:

The Program and documentation have been developed entirely at private expense and are provided as "Commercial Computer Software" or "restricted computer software." Use, duplication or disclosure by the U.S. Government or a U.S. Government subcontractor is subject to the restrictions set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clauses in DFARS 252.227-7013 or as set forth in subparagraph (c)(1) and (2) of the Commercial Computer Software Restricted Rights clauses at FAR 52.227-19, as applicable. The Contractor/Manufacturer is Activision, Inc., 3100 Ocean Park Boulevard, Santa Monica, California 90405.

INJUNCTION: Because Activision would be irreparably damaged if the terms of this Agreement were not specifically enforced, you agree that Activision shall be entitled, without bond, other security or proof of damages, to appropriate equitable remedies with respect to breaches of this Agreement, in addition to such other remedies as Activision may otherwise have under applicable laws.

INDEMNITY: You agree to indemnify, defend and hold Activision, its partners, affiliates, licensors, contractors, officers, directors, employees and agents harmless from all damages, losses and expenses arising directly or indirectly from your acts and omissions to act in using the Product pursuant to the terms of this Agreement.

MISCELLANEOUS: This Agreement represents the complete agreement concerning this license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable and the remaining provisions of this Agreement shall not be affected. This Agreement shall be construed under California law as such law is applied to agreements between California residents entered into and to be performed within California, except as governed by federal law and you consent to the exclusive jurisdiction of the state and federal courts in Los Angeles, California.

If you have any questions concerning this license, you may contact Activision at 3100 Ocean Park Boulevard, Santa Monica, California 90405, USA, (310) 255-2000, Attn. Business and Legal Affairs, legal@activision.com.

411VM SKATEBOARDING VIDEO MAGAZINE

Founded in 1993, a fledgling idea amongst friends, 411VM has grown into the widest reaching skateboarding periodical on the planet. Released bi-monthly in over 60 countries, 411 reaches an estimated audience of almost 19 million people worldwide. Unlike the written word, video footage crosses international borders without hesitation, and 411VM has assumed the position as the main source of information keeping the global skateboarding community up to date. Each issue features interviews and footage of today's top professionals, up and coming amateurs, contest coverage, spot checks, road trips, and current footage of the best skateboarding going on in the United States and all around the world. Set against the background of some of today's and yesterday's best music, there is no more informative or entertaining way to view and understand the ever changing world of modern skateboarding. Visit 411vm.com for all the latest info on 411.

411VM.COM

"411 Video Magazine had been revolutionary in covering skateboarding in a non-traditional sense over the years. Skate fans rely on it to keep them informed and entertained, and it keeps improving with the release of each new issue."
